

Statement of Krista Robertson
Candidate for Steering Committee
Estates, Trusts, and Probate Law Community

With nearly 15 years of experience in estate planning and estate and trust administration, I am committed to supporting the Estates, Trusts and Probate Law Steering Committee's efforts to support probate practitioners within our community.

I have had the privilege of working with families, individuals, and within the D.C. Probate Court to navigate complex issues related to estate planning, wealth transfer, and estate and trust administration. As a result, I have a comprehensive understanding of the intricacies involved in probate matters and the need for fast, fair, and equitable outcomes.

As a member of the Steering Committee, my goal is to support our estates and trusts community. I am particularly interested in facilitating more transparency between the bench and bar to ensure all stakeholders in matters that come before the Probate Court receive the support they need to move administration matters to a satisfactory conclusion.
